

Have you experienced a system failure? Have you been treated unfairly, discriminated, abused, or harmed by “systems” such as police, hospital, doctor, bus driver, welfare office, shelter staff, and other social services? Please share your experiences *anonymously* (we do not ask for or share your name). We collect stories of system failures to build power, challenge institutions and hold them accountable.

working for YOU?

SYSTEM FAILURE ALERT!

when i went to emergency room with an abscess, doctor refused to treat my pain and accused me of drug seeking.

a nurse asked me why i was so upset about being raped if i sometimes have sex with strangers to get money.

police trespassed me from the homeless camp i was living in and destroyed my belongings.

my case worker does not respect my gender identity or call me by the name i want them to use.

at a public library, staff refused to let me use the key to the restroom. i think it's because i am homeless.

my counselor keeps suggesting that my boyfriend is pimping me or trafficking me even though it's not true.
